**Joyful Noise** is a chorus of forty-five adults, ages 17–70, with physical and neurological challenges and acquired brain injuries. Founded in 2000 by Director Allison Fromm and her sister, chorus member Beth Fromm, the ensemble is hosted by Bancroft, in southern New Jersey and Delaware. Joyful Noise fosters an atmosphere of community, acceptance, and teamwork in which members can discover their voices and express themselves through music. As one singer explains, "It makes me feel famous and proud!" Another reveals, "It's my life's dream to be an entertainer forever.... and my dream came true!" The chorus serves as a model and a resource for similar ensembles that seek to develop in their members a sense of pride, confidence, and the potential to contribute to our world.

**Luke's Place-** Our non-profit agency seeks to provide a much underserved community of young adults with special needs with the goods, services, and social experiences they need in order to have a successful, fulfilling, and purposeful life. We choose to foster and guide our special needs community towards positive outcomes in their daily lives while also assisting them to serve others. We look to achieve acceptance in the typical community through social interactions, volunteerism and awareness. Our special needs clientele consists of young men and women over 21 years of age who have "aged" out of the curriculum and educational system provided by their school districts. They have a need for programming and activities that are age appropriate and fulfilling in both a social and from an individual interest perspective. Thus the formation of "Luke's Place". We also plan to assist local school districts with students in transition and help parents along the way with the process.
